

Red Flag, Provide and Safety net demonstration

Keith Birrell and Tamzin Ross give you examples, from across the GP curriculum, of how you might ask red flag questions. We provide you with explanations that might be relevant to your patient. And for each presentation we give examples of how you might safety net. This demonstration provides you with lots of knowledge from across the curriculum, and this knowledge is applied in a skilful way. These skills and knowledge will help you to do your job in the consulting room, and the exam room, better.
